

*"Contributing to a **healthier** environment for this world"*

UMIYA INDUSTRIES

TECHNOLOGY OF POLLUTION CONTROL

Umiya Industries, Established in 2008 we have developed exceptional expertise as air pollution control system manufacturers, producing high-quality dust collection solutions in India. Our extensive product range includes industrial dust collection system blowers, bag house dust collection system, and customized dust collection systems tailored to specific customer needs, such as Kiln Pollution control systems.

Our dust collectors are synonymous with superior quality and unmatched performance, making them a preferred choice for many companies. We go beyond merely providing a product; we create tailored solutions that meet our customers' unique requirements. This customer-centric approach has earned us a reputation as a trusted dust collection system manufacturer in India.

Vision

Umiya Industries, founded by Vasant Patel in 2008, is dedicated to creating innovative air pollution control solutions.

Mission

Umiya Industries envisions a cleaner, healthier world through innovative air and dust control solutions. Specializing in products like Dust Collection Systems.

The Umiya Industries Industrial Vacuum Cleaner is engineered for heavy-duty cleaning in industrial environments. With its robust construction and powerful suction capabilities, this vacuum is designed to handle tough dirt, debris, and liquids across various surfaces. The vacuum features a high-capacity dustbin, ensuring prolonged use without frequent emptying. Equipped with advanced filtration systems, it captures even the finest dust particles, promoting a cleaner and healthier workspace. Its durable wheels and ergonomic handle provide easy maneuverability, while the noise-reduction technology ensures quieter operation.
